MEMORANDUM FOR: Director of Data Processing

FROM:

[REDACTED]
Chief, Building Planning Staff, OL

SUBJECT:

Office of Data Processing Power
Requirements for the New Headquarters
Building

1. In recent discussions with your technical staff, it has been agreed that a central 415 hertz power supply will not be a project requirement for the new Headquarters building.

2. Attached is a copy of correspondence to the architect-engineer directing the project design firm to proceed accordingly.

Attachment:
As Stated

Attention: Mr. Wm. Everett Medling

Gentlemen:

It has been determined that 415 hertz power identified in the Schematic Design for the computer space is no longer a project requirement. Any future need for 415 hertz will be generated by an in-room MG set or a solid state frequency converter that will be supplied by the customer. Advise the construction cost savings for this project deletion as soon as possible.

Sincerely,

Building Planning Staff
